**DESCRIPTION**

The GBP715C series are pneumatic-hydraulic tools designed specifically for the efficient installation of a wide range of blind rivets. They can be operated in any position with one hand. They have a rated pull load of 1400 pounds with 90 psi air pressure at the air inlet.

The GBP715CSH and GBP715CSR riveters offer a unique “split” system providing the operator with an ergonomic tool with reduced hand held weight, as shown below.

The GBP715C series riveters operate on a wide range of air pressure, with 90 to 100 psi providing the maximum efficiency. At 90 lbs air pressure, the GBP715C series does not exceed 85 db (A) and consumes 3 cfm at 20 cycles a minute.

The air inlet is provided with 1/4-18 female pipe threads to accept the users air hose fitting.

**NOSE ASSEMBLIES ARE NOT FURNISHED WITH TOOL AND MUST BE ORDERED SEPARATELY.**
